

Health & Social Policy Associates (HSPA)

Relief Support For Flood Affected People in Sindh September, 2022

About HSPA

Health & Social Policy Associates (HSPA) is registered under Companies Ordinance, 1984 (XLVII of 1984) at the Securities & Exchange Commission of Pakistan since 2014. HSPA works in the areas of health, population, education, poverty reduction, economic growth, democratic development, governance, civic participation, people's voice & accountability and climate change. In recent floods, HSPA is providing support in district Noshehroferoze.

Proposed Project

Build Climate Resilient & Empowered Communities

Key Activities to undertake

- **Safe spaces for women/families** and adolescent girls with psycho-social support; awareness on SRHR, GBV
- **Food support:** Support to communities to address malnutrition
- **SRHR Newborn care:** Support to pregnant women: referrals for ANC; Delivery; Safe Delivery Kits for TBAs, SBAs; PNC; Newborn care
- **Medical Camps/mobile camps:** Support to prevent and treat malaria, dengue, cholera, diarrhea, wide spread spray against mosquitoes, Impregnated Bed Nets, creating linkages with primary, secondary healthcare facilities, coordination with district health system
- **Awareness & Accountability:** awareness sessions, telehealth, counseling, information regarding services available within public and private sector
- **Sustainability:** Peoples Committees for climate resilience and empowerment for sustainability, self-help in current and future crises based on social & behavior change communication

Geographic focus: HSPA is initially focusing on district Noshehro Feroze.
Policy Briefs for Advocacy and Scale up: Policy Briefs based on service delivery data, recommendations, experiences, lessons learnt for decision making
